4B: Third Party Accommodation. Third party requested work. This Change Order modifies the contract to require that Chandler Creek, LP, a Delaware limited partnership (collectively referred to as "Seller") be an additional insured to Capital Excavation's (Contractor) commercial general liability (CGL) insurance policy and to their commercial auto liability (Auto Liability) insurance policy. Adding the Seller to the Contractor's insurance was in the terms and conditions of the Real Estate Contract between the Chandler Creek, LP and Williamson County. The Real Estate Contract was finalized after the plans were completed.

3F: County Convenience. Additional work desired by the County. This Change Order compensates the Contractor for modifications to Driveway #1 that include raising the elevation of the driveway to match the current driveway, improving the driveway by adding 6" of flex base to the pavement section, and using higher strength concrete. The driveway elevation was maintained to minimize the impact of flooding on the driveway access. The improvements were necessary due to the high volume of heavy truck and trailer traffic that uses the driveway.

3F: County Convenience. Additional work desired by the County. This Change Order compensates the Contractor for adding electronic portable changeable message boards to provide advance notification of the closure of North Mays, from Jeffery Way to Paloma Drive. The Change Order also adds compensation for the removal of the City of Round Rock Public Safety Training Center sign. Electrical ground boxes and installation of illumination on the Chandler Branch bridge will be added at the request of Oncor.

1A: Design Error or Omission. Incorrect PS&E. This Change Order adds a 24" encasement to the relocation of the new City of Round Rock 12" Water Line A that crosses the roadway at the north end of the project. The installation of the water line was included in the plans, but the encasement was not. The encasement is required to protect the water line under the roadway.

2G: Unadjusted utility (unforeseeable). This Change Order adds various changes to the project, including the additional cost of hauling embankment material due to delays in the relocation of existing utilities. 3F: Additional work desired by the County. Pay items were added for electronic changeable message boards that have been used during road closures at the south end of the project, a driveway on North Mays Street north of the City of Round Rock Public Safety Training Center, and traffic control devices that were added at the northbound lane drop transition at the north end of the project. 2E: Differing Site Conditions (unforeseeable). This Change Order also includes adjustment of existing water valve risers, a manhole in the North Mays Street and Paloma Drive intersection, and a wall along the sidewalk in front of the City of Round Rock Public Safety Training Center.

4B: Third Party Accommodation. Third party requested work. This Change Order modifies the Contract to require that City of Georgetown, (collectively referred to as the "City") be an additional insured to Joe Bland Construction's, L.P. (Contractor) commercial general liability (CGL) insurance policy and to their commercial auto liability (Auto Liability) insurance policy. Adding the City to the Contractor's insurance was in the terms and conditions of the Interlocal Agreement between the City and Williamson County.

2. Differing Site Conditions (unforeseeable) 2G: Unadjusted utility (unforeseeable): This Change Order compensates the Contractor for lowering and encasing existing water service lines to the Williamson County Adult Probation Center and Parcel 41. The service lines will be lowered and encased 2 and ½ feet below finish grade of the ditches. This will allow for water service to be maintained across the proposed roadway, allows the lines to be removed if needed for any repairs and will not compromise the roadway structure if they do need future repairs.

2 Differing in site conditions. (Unforeseeable) 2E. Miscellaneous difference in site conditions (unforeseeable) (item 9): This change order compensates the Contractor for over-excavating unsuitable material and importing embankment material from offsite that meets the requirements in the specifications. With the limited areas on the project to find suitable material it was agreed to import the required material. A Force Account item has been created to cover half of the cost of the imported material and half of the trucking. This amount is to cover this area and any other areas that may be encountered on site.

2C. Differing site conditions (Unforeseeable). New development (conditions changing after PS&E completed): This Change Order documents various changes to the contract related to new developer and Church driveways on the west end of the project. 3F. County Convenience. Additional work desired by the County: In addition to the driveways, the bridge rail was changed along the bridge to a more appealing look. 1B. Design Error or Omission. Other: Additional excavation was needed in Pond 21 to create more volume and line EA had to be adjusted for optimum flow along Wall 4.

1A. Incorrect PS&E. This Change Order replaces the SGT and MBGF with Crash Cushion Attenuators on the proposed eastbound lane at both bridges due to them not being able to be installed per plan because of the post locations being in the MSE rock backfill. 2E. Miscellaneous difference in site conditions (unforeseeable)(Item 9). This Change Order also compensates the contractor for replacing a portion of an existing concrete driveway that needed to be removed to install the 48in RCP on Line B35.

1B. Design Error or Omission. Other: This Change Order adds two items to the Contract for installing a 4' x 2' box culvert (EE) and related wingwalls/headwalls. The work was shown in the plans but not included in the bid tab. This Change Order also removes SET (TY 1) (S=5ft)(HW=3FT) (6:1) (C) item. The work was removed from the plans but the item was left in the bid tab. These plan revisions were made prior to bidding due to outstanding items on the TxDOT permit for the work at the FM 973 tie-in.

2E. Miscellaneous difference in site conditions (unforeseeable)(Item 9). This Change Order adds quantities to existing items due to unexpected changes in field conditions, causing overruns on the project. The excavation and embankment quantities had to be adjusted, due to the existing elevations at the west tie-in. The 18-inch and 36-inch drill shafts needed to be extended to ensure the shafts had proper embedment into stable material.

## APRIL 2024 IN REVIEW

4/5/2024: James Construction Group (JCG) continued swale excavation along the southbound frontage road. Subcontractor Circle H finished pushing the 24-inch water line pipe through bore under US 79.

4/12/2024: JCG poured concrete for various culvert wingwalls, continued excavation, processed subgrade, and continued lime stabilization along the southbound frontage road. Subcontractor Lone Star Paving repaired the roadway at the eastern turn around on US 79.

4/19/2024: JCG continued swale excavation along the southbound frontage road north and south of US 79. Subcontractor Circle H continued work on the sleeve at the south tie-in. Subcontractor GK Construction began tying rebar on the southbound frontage road bridge deck.

4/26/2024: JCG set forms and poured Abutment 1 and continued setting forms and pouring columns for bents 2 through 5 of the northbound frontage road bridge.

3. County Convenience. 3L Revising safety work/measures desired by the County: This Change Order provides funds to compensate the contractor for installing safety improvements on US 79 until the permanent overpasses are built. By installing these traffic control measures the drivers traveling north bound on FM 3349 can no longer proceed straight or make a left turn at the US 79 intersection. The same will apply for traffic traveling south on CR 101. Drivers will need to make a right turn on US 79

3. County Convenience. 3L Revising safety work/measures desired by the County: The original bid item 36-inch Ductile Iron Pipe has long lead time of material procurement and is not readily available. Contractor proposed two options with shorter lead time to the City of Hutto as alternatives. City of Hutto has approved option 2, which is 36-inch PVC DR 18 pipe as an alternative with \$82,000 increase in cost to the current item and allows contractor to procure material quicker. The cost of this material change is 100% reimbursable by the City of Hutto.

5. Contractor Convenience. 5E Other: This Change Order is to revise the Stone Riprap material cost due to a material substitution request from the contractor. James Construction proposed material that has a specific gravity below the Contract requirements but has been accepted by TxDOT in other projects. The EOR approved the use of this material and recommended a reduction in price. This Change Order will result in a cost savings for the proposed material. This Change Order also adds new items to the Contract to pay the Contractor for additional work that was originally paid under the Force Account Line item.
